High Atlas Foundation: Corporate and Social Responsibility

The American Chamber of Commerce is proud to present the High Atlas Foundation's (HAF) newly launched **corporate sponsorship program**. A US NGO with a field office in Morocco, HAF works with local communities to implement socio-economic and environmental projects using an inclusive participatory approach. HAF is a member of AmCham, and most recently launched partnerships with the Office Chérifien des Phosphates (OCP) to work with communities in Ben-Guerir, and with Hassan II University-Mohammedia to establish a training center in participatory development. These partnerships, and others, were announced last November at an event hosted by former US Ambassador to Morocco, Thomas T. Riley.

We encourage you to review the sponsorship documents (French and English versions attached) to learn more about HAF and ways you can partner with them - positioning your company as a leader in the field of corporate social responsibility and strengthening US-Morocco partnerships.
